

# Safety Data Sheet

## Section 1. PRODUCT AND COMPANY IDENTIFICATION

### 1.1 Product identifier

Product Name: **BLUE SUPER FOAM**  
Synonym: Vehicle Wash  
Product Item No.: 4010

### 1.2 Recommended use of the product and restrictions on use

Uses: Vehicle Wash  
Restrictions: Where high foam is undesired  
Product dilution: Product is able to be diluted

### 1.3 Details of the supplier of the safety data sheet

Company: Emtech Laboratories, Inc.  
580 S. Cemetery Street  
Norcross, GA. 30071  
Telephone: 877-753-3271  
Fax Phone Number: 888-294-7060

### 1.4 Emergency telephone number

Emergency Phone Number: 678-534-8007

## Section 2. Hazards Identification

### 2.1 Classification of the substance or mixture:

Acute toxicity, Oral (Category 4)  
Acute toxicity, Inhalation (Category 4)  
Serious Eye Damage (Category 1),  
Acute aquatic toxicity (Category 2)  
Skin irritation (Category 2),

### 2.2 GHS Label elements

Pictogram(s)

Signal Word:

Danger

BLUE SUPER FOAM

Hazard statement(s): Harmful if swallowed or if inhaled. Causes serious eye damage. Causes skin irritation. Toxic to aquatic life with long lasting effects. May cause drowsiness or dizziness

H302 + H332	Harmful if swallowed or if inhaled
H314	Causes severe skin burns and eye damage.
H318	Causes serious eye damage.
H336	May cause drowsiness or dizziness
P210	Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P261	Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.
P264	Wash skin thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P273	Avoid release to the environment.
P280	Wear eye protection/ face protection.
P301 + P312 + P330	IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell. Rinse mouth.
P303 + P361 + P353	IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.
P304 + P340	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
+P310	Call a POISON CENTER or doctor/ physician if you feel unwell.
P312	Call a POISON CENTER or doctor/ physician if you feel unwell.
P337 + P313	If eye irritation persists: Get medical advice/ attention.
P370 + P378	In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.
P403 + P233	Store in a well-ventilated place. Keep container tightly closed.

### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS: None

## Section 3. Composition / Information on Ingredients

**Substance/ Mixture:** Mixture

Hazardous Ingredients	Concentration Range (%)	CAS number
Ethoxylated Alcohols	1 - 3	
Tetrasodium Salt EDTA	0.3 – 0.7	64-02-8
Sodium Lauryl Sulfate	3 - 5	151-21-3
Cocamidopropyl betaine	3 - 5	61789-40-0
Coco Diethanolamide	1 – 3	68603-42-9

## Section 4. First Aid Measures

### 4.1 Description of first aid measures

#### General

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

**Inhalation**

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician if breathing difficulty persists.

**Ingestion**

Never give anything by mouth if victim is rapidly losing consciousness, is unconscious or convulsing. DO NOT INDUCE VOMITING. Have victim drink two glasses of water to dilute material in the stomach. If vomiting occurs naturally, have the victim lean forward to reduce risk of aspiration, rinse mouth and repeat administration of water. Get medical attention immediately.

*Inadvertent inhalation of vomited material may seriously damage the lungs. The danger of this is greater than the risk of poisoning through absorption of this relatively low toxicity substance. The stomach should only be emptied under medical supervision, and after the installation of an airway to protect the lungs.*

**Skin**

Wash off with soap and plenty of water. Consult a physician if irritation persists.

**Eye**

Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for at least 15 minutes, while holding the eyelid(s) open. Get medical attention.

**4.2 Most important symptoms and effects, both acute and delayed**

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

**4.3 Indication of any immediate medical attention and special treatment needed**

No data available.

Section 5. Fire-Fighting Measures
-----------------------------------

**5.1 Suitable Extinguishing Media**

Use water spray, alcohol-resistant foam, dry agent (carbon dioxide, dry chemical powder).

**Unsuitable Extinguishing Media:**

No data available.

**5.2 Special hazards arising from the substance or mixture**

Carbon oxides, amine oxides, and sulfur oxides.

**5.3 Advice for firefighters**

Wear full protective clothing (chemical splash suit) and positive pressure self-contained breathing apparatus.

**5.4 Further information**

Use water spray to cool unopened containers.

National Fire  
Protection

Association (NFPA)

0 = None 4 = Extreme Hazard

Health:	2
Fire Hazard:	1
Reactivity:	0

## Section 6. Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8.

### 6.2 Methods and materials for containment and cleaning up

For small amounts: Pick up with suitable absorbent material. Dispose of absorbed material in accordance with regulations. Do not use saw-dust or other combustible substances as an absorbent during cleanup. For large amounts: Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).

### 6.3 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

### 6.4 Reference to other sections

See section 8 to personal protective protection and section 13 to waste treatment.

## Section 7. Handling and Storage

### 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist.  
For precautions see section 2.2.

### 7.2 Conditions for safe storage, including and incompatibilities

Store in a cool, dry, well-ventilated area away from sunlight, heat and ignition sources. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

### 7.3 Specific end use(s)

Apart from the uses referenced in section 1.2 no other specific uses are stipulated

## Section 8. Exposure Controls / Personal Protection

### 8.1 Control parameters

#### Ingredients with workplace control parameters

Ingredients	CAS-No.	Type	Permissible Concentration	Basis
-------------	---------	------	---------------------------	-------

TWA - The time-weighted average airborne concentration of a particular substance when calculated over an eight-hour working day, for a five-day working week.

STEL (Short Term Exposure Limit) - the airborne concentration of a particular substance calculated as a time-weighted average over 15 minutes, which should not be exceeded at any time during a normal eight hour work day. According to current knowledge this concentration should neither impair the health of, nor cause undue discomfort to, nearly all workers.

**WEEL - Workplace Environmental Exposure Levels**

These Workplace Exposure Standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These workplace exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

**8.2 Appropriate engineering controls**

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

**8.3 Personal protective equipment****General Information**

Provide eyewash, safety shower and washing facilities.

**Eye/face protection**

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

**Skin protection**

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Body Protection**

No protective equipment should be needed under normal use conditions.

**Respiratory protection**

No protective equipment should be needed under normal use conditions.

**Hygiene measures**

Always wash hands before smoking, eating, drinking or using the toilet. Wash hands before breaks and at the end of workday. Wash contaminated clothing and other protective equipment before storage or re-use.

## Section 9. Physical and Chemical Properties

**9.1 Information on basic physical and chemical properties**

a) Appearance	Form:	Liquid
	Color:	Clear, Blue
b) Odor		Mild
c) Odor Threshold		no data available
d) pH		9.9 Typical
e) Melting point/freezing point		no data available
f) Initial boiling point and boiling range		>212°F (100°C)
g) Flash point closed cup		>200°F (93.4°C)
h) Evaporation rate		no data available
i) Flammability (solid, gas)		no data available
j) Upper/lower flammability or explosive limits		no data available
k) Vapor pressure		no data available

l) Vapor density	no data available
m) Relative density	1.019 g/cm <sup>3</sup> at 25 °C (77 °F)
n) Water solubility	soluble
o) Partition coefficient: n-octanol/water	no data available
p) Auto-ignition temperature	no data available
q) Decomposition temperature	no data available
r) Viscosity	no data available
s) Explosive properties	no data available
t) Oxidizing properties	no data available

**9.2 Other information**

VOC (Volatile Organic Compounds)	0% by weight
Molecular Weight	Mixture
Bulk Density	no data available

Section 10. Stability and Reactivity

**10.1 Reactivity**

No data available

**10.2 Chemical stability**

No data available

**10.3 Possibility of hazardous reactions**

No data available

**10.4 Conditions to avoid**

No data available

**10.5 Incompatible materials**

Strong acids, Strong bases, Strong oxidizing agents

**10.6 Hazardous decomposition products**

In the event of fire, decomposition products may include the following materials: carbon dioxide, carbon and monoxide, amine oxides, and sulfur compounds. In the event of fire: see section 5

Section 11. Toxicological Information

**11.1 Likely Routes of exposure**

Likely routes of exposure include: inhalation, eye and skin contact.

**11.2 Signs and symptoms of exposure**

Eye irritation signs and symptoms may include redness and pain.

Skin irritation signs and symptoms may include dryness and pain.

Breathing of high vapor concentrations may cause central nervous system (CNS) depression resulting in dizziness, light-headedness, headache, nausea, and loss of coordination.

Respiratory irritation signs and symptoms may include cough, drowsiness, headache, and sore throat.

**11.3 Delayed and immediate effects/Chronic effects from short- and long-term exposure****Eye**

Contact with eyes causes serious damage. Corrosion may occur. *Burns heal within a week; no adverse systemic effects reported following industrial exposure.*

**Skin**

Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin resulting in desiccation of the skin.

**Inhalation**

Inhalation of large amounts of this material may affect the respiratory system and mucous membranes (irritation).

**Ingestion**

Ingestion of this material may cause abdominal discomfort, nausea, and diarrhea.

**Chronic effects**

See additional information in section 11.

**Respiratory or skin sensitization**

No data available

**Germ cell mutagenicity**

No data available

**Reproductive toxicity**

No known effect in humans; fetotoxic in rodents only at excessive doses causing maternal symptoms.

**Specific target organ toxicity-single exposure**

Inhalation, Oral - May cause drowsiness or dizziness.

**Specific target organ toxicity-repeated exposure**

No data available

**Aspiration hazard**

No data available

**Additional Information**

No data available

**11.4 Information on toxicological effects****Acute toxicity**

Ingredient	CAS No.	LD50-Oral, Rat	Inhalation, Rat	Dermal, Rabbit
Ethoxylated Alcohols		300 - 2000 mg/kg		
Sodium Lauryl Sulfate	151-21-3	1288 mg/kg	>3900 mg/m 1 hr	
Cocamidopropyl betaine	61789-40-0	>5 g/Kg		
Coco Diethanolamide	68603-42-9	>5 g/kg		

**Skin corrosion/irritation test subject (Rabbit Skin)**

Skin-Rabbit

Result: Skin irritation – 24 hr.

**Serious eye damage/eye irritation test subject (Rabbit Eye)**

Risk of serious damage to eyes.

**11.5 Carcinogenicity**

This product is or contains a component that is not classifiable as to its carcinogenicity based on its IARC, ACGIH, NTP, or EPA classification.

IARC (International Agency for Research on Cancer): No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.

ACGIH (American Conference of Governmental Industrial Hygienists): No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP (National Toxicology Program): No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA (Occupational Safety and Health Administration): No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

## Section 12. Ecological Information

### 12.1 Ecotoxicity

Ingredient	CAS No.	
Ethoxylated Alcohols		LC50-Fish 1 -10 mg/l - 96 h Read-across (Analogy)
Cocamidopropyl betaine	61789-40-0	LC50-Pimephales promelas (fathead minnow)-1.11 mg/l - 96 h
Sodium Lauryl Sulfate	151-21-3	LC50-Pimephales promelas (fathead minnow)-29 mg/l - 96 h
Tetrasodium Salt EDTA	64-02-8	LC50-Bluegill sunfish – 157 mg/l (in very soft water)

### 12.2 Persistence and degradability

According to the results of tests of biodegradability this product contains a component that degrades readily but slowly in acclimated waters.

### 12.3 Bioaccumulative potential

The potential for bioaccumulation is low.

### 12.4 Mobility in soil

This product is water soluble and will move readily in soil and water

### 12.5 Other adverse effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Toxic to aquatic life with long lasting effects. No additional data available.

## Section 13. Disposal Considerations

### 13.1 Waste treatment methods

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER.

All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations.

Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

## Section 14. Transportation Information

### Land Transport (DOT)

14.1 UN number	Not regulated
14.2 Proper Shipping Name:	Not regulated
14.3 Transport Hazard Class:	Not Regulated
14.4 Packing Group	Not Regulated
14.5 Special Precautions for the user	Not Regulated

IATA (International Air Transport Association): No data

IMDG (International Maritime Dangerous Goods Code): No data

## Section 15. Regulatory Information

### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (DeMinimis) reporting levels established by SARA Title III, Section 313.

### SARA 311/312 Hazards

Acute Health Hazard

### US State regulations

#### Massachusetts Right To Know Components

Sodium Lauryl Sulfate (151-21-3)

#### Pennsylvania Right To Know Components

Sodium Lauryl Sulfate (151-21-3)

#### New Jersey Right To Know Components

Sodium Lauryl Sulfate (151-21-3)

#### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm at levels.

## Section 16. Other Information

**Hazardous Material  
Information System  
(HMIS)**

<b>Health:</b>	<b>2</b>
<b>Fire Hazard:</b>	<b>1</b>
<b>Reactivity:</b>	<b>0</b>
